# Jordan Rivera

Springfield, IL | (555) 010-0199 | jordan.rivera@example.com | linkedin.com/in/jordan-rivera-example

## PROFESSIONAL SUMMARY

Data engineer with 6 years of experience building reliable batch and streaming pipelines, analytics tooling and dashboards. Comfortable owning projects end to end and explaining results to non-technical partners.

## WORK EXPERIENCE

**Data Engineer, Northwind Analytics** Mar 2021 – Present

- Built batch and streaming pipelines in Python and SQL that feed 40 internal dashboards.
- Cut nightly job runtime by 40% by partitioning large tables and removing duplicate work.
- Designed data quality checks with Airflow that catch broken loads before analysts see them.
- Partnered with product managers to define metrics for experiments and explained the results.

**Software Developer, Contoso Retail** Jul 2018 – Feb 2021

- Maintained internal reporting tools used by 200 store managers.
- Automated weekly sales reports in Python, saving the finance team 6 hours a week.
- Migrated legacy cron jobs to AWS Lambda with alerting.

## EDUCATION

**B.S. Computer Science, State University** 2014 – 2018

## SKILLS

Languages: Python, SQL, Bash

Data: Airflow, Spark, dbt, PostgreSQL, Looker

Cloud: AWS (S3, Lambda, Redshift), Docker, Git
